ABOUT THIS HANDBOOK

This handbook is your guide to NYC Care. In it, you will find helpful information about your membership and how the program works. Please read it before going to the first appointment with your primary care provider.

ABOUT NYC CARE

NYC Care is the key to the City's health care that guarantees access to medical services offered by NYC Health + Hospitals to New Yorkers who do not qualify for health insurance or cannot afford health insurance.

NYC Care helps you stay healthy with access to regular, preventive care. Through this program, you can:

- + Choose a primary care provider, who will learn about your medical history and health goals. You do not have to wait until you are sick to get care.
- + Get a unique membership card to access health care. Your card shows the fees you can expect to pay for services.
- + Call our NYC Care Contact Center, available 24/7, when you need help. In case of emergency, always call 911.
- + Get access 24/7 to low-cost prescription medication, including off-hour pickups for regular refills. You can also get refills overnight when needed.

Important: People who are eligible for Medicaid, Medicare, the Essential Plan or a Qualified Health Plan (QHP) available through the Affordable Care Act (ACA) should enroll in the insurance plan available to them.

If you have health insurance now, do NOT drop it. Insurance provides more choices and options to meet your health care needs.

WHERE CAN I USE NYC CARE?

NYC Care offers a network of providers only at NYC Health + Hospitals facilities. Find a list of fees to get services at these sites on your card.

You may get a higher bill if you receive emergency care, are hospitalized or visit providers out of network or outside New York City.

For a list of NYC Health + Hospitals locations where you can use NYC Care, call the NYC Care Contact Center or visit nyccare.nyc

How much does it cost to participate

Since NYC Care is not health insurance, there are no membership fees, monthly fees or premiums. Your cost to receive health care is based on a sliding-scale fee per service (see page 12).

How to renew your membership

NYC Care will have a financial counselor at NYC Health + Hospitals screen you every 12 months. The screening will show if you are eligible for insurance. If not, the financial counselor will help you renew your NYC Care membership.

YOUR MEMBERSHIP CARD

You will get a membership card in the mail. Carry this card always but especially when:

- + Visiting your primary care provider
- + Getting any health care services at NYC Health + Hospitals facilities

MEMBER FEES

These copays only apply to care you get at NYC Health + Hospitals facilities.

The card shown is a sample of the front and back of an NYC Care membership card.

Your card is unique to you and shows your fees for health care services.

How to replace your membership card

If you lose your membership card, call the NYC Care Contact Center at 1-646-NYC-CARE (1-646-692-2273) to order a new one. Customer Service is available 24/7.

YOUR PRIMARY CARE PROVIDER

Your primary care provider will coordinate your health care and connect you with other services you need. Your provider can be a doctor, nurse practitioner or physician assistant. Their most important job is to help you avoid getting sick. This is called preventive care (examples are routine health screenings and vaccinations). Getting it regularly makes needing emergency care less likely.

How to choose your primary care provider

For the best preventive care, NYC Care encourages you to choose a primary care provider that you can trust. This will make sharing your medical and lifestyle information easier. You will work together to begin, or continue, a health routine that includes diet, weight control and exercise.

The NYC Care Contact Center helped you choose a primary care provider when you enrolled. If you have not chosen or want to change your primary care provider, you can call the NYC Care Contact Center. It is important that you feel comfortable with your choice.

YOUR HEALTH CARE SERVICES

As a member of NYC Care, you have access to many health services. Your primary care provider will help coordinate them, including medication. All specialty services (like Cardiology or Podiatry) need a referral from your primary care provider – except Women’s Health.

Some of the health care services available to you are:

Primary and Preventive Care

Your primary care provider treats routine physical conditions, such as high blood pressure and pain. They can give routine vaccinations and screenings, like mammograms and colonoscopies. They also test for and help you manage chronic disease.

Your primary care provider leads your health care team. It may include nurses, medical assistants, social workers, pharmacists, nutritionists and assistants. They can all help you ask for referrals or make appointments.

Generally, if you are healthy, you only need to visit your primary care provider once a year. (Patients with chronic disease need visits more often.)

However, you can visit your primary care provider whenever you have a health concern. For urgent services, the NYC Care Contact Center can make same-day appointments 24/7.

Specialty Care

Your primary care provider works closely with specialists and can help decide if you need their services. Examples of specialty care services are:

- | | |
|----------------|------------------------------|
| + Cardiology | + Gastroenterology |
| + Rheumatology | + General Surgery |
| + Orthopedics | + Ear, Nose and Throat (ENT) |
| + Podiatry | + Psychiatry |
| + Bariatrics | |

Behavioral Health and Substance Use

Besides your physical health, NYC Care knows that mental and behavioral health is also important. Your primary care provider is here to support you if you are going through a long period of sadness, stress, nightmares or anxiety

or are using tobacco, alcohol or other drugs. Your provider can refer you to the right mental and behavioral health specialist, like a social worker, therapist or psychiatrist.

Women's Health

NYC Care members get Women's Health services like Obstetrics and Gynecology, family planning, sexually transmitted infection testing and more.

IMPORTANT

You do not need a referral from a primary care provider to make an appointment with a Women's Health provider.

Medications

NYC Care members get low-cost prescription medication and pharmacy access 24/7. Remember to read the information on your medication to learn when and how to take it.

You can get refills for some medication. There are three ways to ask for refills:

1. Go to the pharmacy at any NYC Health + Hospitals facility and ask them to call your primary care provider.
2. If you have a MyChart account, log on and ask for a refill.
3. Call the NYC Care Contact Center at 1-646-NYC-CARE (1-646-692-2273).

Vision

Our ophthalmologists (eye doctors) can examine your eyes and give you eyeglass prescriptions. Get a referral from your primary care provider.

Support Services

Where and how you live may affect your physical, mental and behavioral health. NYC Care knows this, so it offers support services. The social workers in your health care team can connect you with free housing, legal, financial, food and nutrition help. Speak with your primary care provider about the social support that NYC Care offers.

Health care services not covered

NYC Care does not cover these services, but you may be able to get them at NYC Health + Hospitals:

- + Cosmetic procedures – unless you need them for a medical reason
- + Dental services – available to NYC Care members and other uninsured patients through NYC H+H Options (a free or discount payment plan to make health care services affordable)
- + Skilled nursing or long-term acute care
- + Emergency care and hospital stays – Emergency Medicaid may cover these services

HOW TO GET AND MANAGE YOUR CARE

How to make your appointments

When you enrolled, the NYC Care Contact Center should have booked your first primary care visit. This appointment should be within two weeks of enrollment.

If you do not have your first primary care appointment yet, call the 24-hour NYC Care Contact Center at 1-646-NYC-CARE (1-646-692-2273). There are no walk-in hours for routine visits, so you will need to make an appointment to see your provider. The NYC Care Contact Center can help if you need to make an appointment urgently.

You can make all appointments with your primary care provider, Women's Health care provider or referred specialists by calling the NYC Care Contact Center or visiting MyChart (see next page).

When scheduling an appointment, please give:

- + Your name
- + The name of your primary care provider
- + Your NYC Care membership number, located on the front of your membership card

Always bring your membership card to all NYC Care appointments.

IMPORTANT

If you need to change or cancel an appointment, please call the NYC Care Contact Center as soon as possible. This allows another patient to use the appointment time.

About MyChart online

MyChart is a free, easy and secure tool to view and manage your health information online any time. Access your medical record portal through the MyChart mobile app or website to:

- + Ask for appointments with your primary care provider, Women's Health provider and referred specialists
- + Get medication refills
- + Review your lab results and visit notes
- + Message your primary care provider and health care team
- + Providers may also message you about your health care – saving you time and money because you do not have to come in person

To set up your MyChart account, there are two options:

1. Talk to a member of your health care team. You will then get an invite in your email to create an account.
2. Sign up on mychart.nychealthandhospitals.org

MyChart is a tool for your convenience, available in English, Spanish and French. You do not have to use MyChart to participate in NYC Care.

Get ready for your first appointment

To get the best care, your primary care provider needs to know your medical history and health goals.

Please bring the following to your first appointment:

- + All of your prescription and over-the-counter medication (such as pills, injections, inhalers, herbs, supplements, etc.)
- + Your filled-out Adult Initial Health History Form (you got this in the mail with your membership card)
- + Your medical records (especially vaccination record, colonoscopy or mammogram reports and Pap smear results, etc.)
- + Advance directive or health care proxy form
- + Questions about your health or medication

BILLING AND FEES

NYC Care health services are available at a discount rate based on your household size and income. Find a list of fees for common services on the back of your NYC Care membership card or in the chart on the next page.

If your household income is greater than the limit for the household size in the chart, your bill will be based on the self-pay rate for the care received. Payment plans may be available.

How to pay

NYC Care encourages you to pay your fees at the time you get health care services. You can pay with cash, credit card or debit card. If you cannot pay then, NYC Care will mail the bill to your home.

If you get a bill you cannot pay, call the NYC Care Contact Center to discuss your options.

Important: When you enroll in NYC Care, discounts based on your household size and income may be applied to prior NYC Health + Hospitals bills.

行为健康和物质使用

除您的身体健康外，NYC Care 还知道心理和行为健康也很重要。如果您正在长期经历悲伤、压力、做噩梦或焦虑，或者如果您正在吸烟、酗酒或吸食其他毒品，您的主治医生将随时为您提供支持。您的服务提供者可将您转介给合适的心理和行为健康专家，例如社工、治疗师或精神科医生。

妇女保健

NYC Care 会员可获得妇女保健服务，例如妇产科、家庭计划、性传播感染检查等。

重要说明

您无需来自主治医生的转介便可与妇女保健提供者预约。

药品

NYC Care 会员可 24/7 全天候获得低成本处方药和药房服务。请记得阅读有关药品的信息，以了解何时服用以及如何服用此药品。

您可以获得某些药品的补充药品。要求补充药品的方法有三种：

1. 请前往任何 NYC Health + Hospitals 机构的药房，并要求他们致电您的主治医生。
2. 如果您有 MyChart 帐户，请登录并要求提供补充药品。
3. 请致电 NYC Care 联络中心，电话为 1-646-NYC-CARE (1-646-692-2273)。

视力

我们的眼科医生可检查您的眼睛，并为您提供眼镜处方。请取得您主治医生的转介。

支持服务

您的居住场所和生活方式可能影响您的身体、心理和行为健康。NYC Care 了解这一点，因此提供支持服务。您医疗保健团队中的社工可帮您联系上免费的住房、法律、财务、食品和营养方面的协助资源。与您的主治医生谈论 NYC Care 提供的社会支持。

NYC Care 不涉及以下服务，但您可以在 NYC Health + Hospitals 获得这些服务：

- + 整容手术 - 除非您出于医疗原因而需要进行这些手术
- + 牙科服务 - NYC Care 会员和其他无保险患者可通过 NYC H+H Options 获得（那是使人们能够负担得起医疗保健服务费用的免费或折扣付款计划）
- + 专业护理或长期急症护理
- + 紧急护理和住院 - Emergency Medicaid 可能承保这些服务
